

ThinkO for iPhone 5 by LANDKA

thinko *['θɪŋkəʊ]* (noun) *a mistake in one's thought processes; a mental lapse or failure to reason correctly; a puzzle-solving game produced by LANDKA in 2012.*

Monday, October 8, 2012 — For all puzzle lovers **ThinkO** 2.0 is now available for iPhone 5 with a completely new gameplay accessible to everyone.

ThinkO is a brain training game that focuses on your cognitive skills. Concentration, problem solving, processing speed and memory are all required to play this game, already considered one of the most challenging puzzle games for iPhone/iPad.

ThinkO starts with a board of multicolored rings. Just move the rows and columns to match the same colored squares in the background. Looks simple, right? ... not quite! The task is mind challenging. This game will trap you. You must think before you make a move.

Modes available:

- Classic: eliminate blocks with a minimum number of moves!
- Speed: race against time and eliminate blocks as fast as you can!
- Puzzle: eliminate all blocks simultaneously!

Special Rings to improve your gameplay:

- Rainbow Rings are viral and contaminate adjacent ones;
- Diamond Rings remove an entire block;
- Poison Rings turn everything into green;
- Thunder Rings eliminate all blocks in their path;
- Diamond Rain drops single diamond rings everywhere.

These rings can be obtained using the internal currency of the game or through in-app purchase.

About the developers: LANDKA is a mobile app development company focused on high quality products in the field of education and entertainment. Our previous title, *Back in Time*, was considered by *The New York Times* as one of the top10 iPad apps released in 2011. It has been recently nominated for the 2012 *World Summit Award* in the m-learning and education category.
